

# Erasmus+ Programme Key Action 2 Project ArtIn Future Is Launched

In March 2021, the Erasmus+ KA2 project “ArtIn Future” was started. The project deals with a very current trend – artificial intelligence and its impact in the modern world, as well as its influence on our young generation. The project is undertaken by five partners, the coordinating partner being Internationaler Bund (IB) Mitte gGmbH (Dresden, Germany); other partners: BEST Institut für Berufsbezogene Weiterbildung und Personaltraining GmbH (Vienna, Austria); PIKC “Daugavpils tehnikums” (Daugavpils Technical School) (Daugavpils, Latvia); CEIP “Felix Cuadrado Lomas” (Cisterniga, Spain); Technische Universität Dresden (Dresden, Germany). The project will continue till February 2023.

## ArtIn Future project presented at 2 European-scale international events

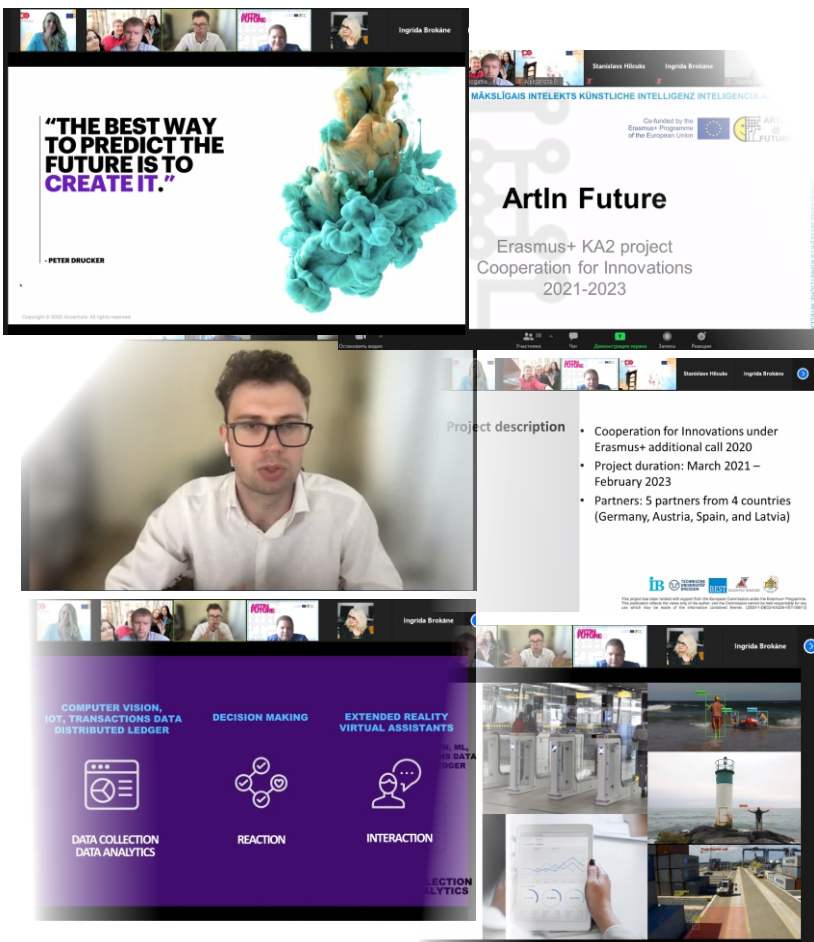

International Online Networking Meeting on April 28, 2021, by BEST Institut für berufsbezogene Weiterbildung und Personaltraining GmbH

- 20 participants: trainers, project managers, social innovation expert, journalist, School reps, VET providers, consultants, association dealing with migrants

International Online Erasmus+ Projects Results Conference on June 15, 2021, by Daugavpils tehnikums

- 40 participants: school's principal, teachers, students, administrative staff, project's associate partner Accenture Latvia, international partners – schools from Germany, Spain, Portugal, Estonia, Italy
- Overall presentation of the new Project

Presentation on Artificial Intelligence and its use in the company Accenture Latvia

## Project outputs

- ArtIn Future - Ethics in Artificial Intelligence** – training material to "clean up" with AI myths, show AI differences and ethical principles and empower critical thinking;
- ArtIn Future Digital skills** – an experiential training course to develop digital skills for educators working particularly with young (adult) learners exploring "weak" AI (like algorithms that already today read patterns from data sets that humans could never recognise);
- ArtIn Future - AI in the Business world.** A OER HUB presenting AI show cases from companies, products designed applying AI, success stories of (female) entrepreneurs in this field to help better understand how companies use AI and which competences are needed to perform these tasks.

## ArtIn Future Show Case month

### ArtIn Future Show Case month

The Show Case month will take place in **early 2023** in all partner organizations. During one week partners will organize promotion events in order to reach at least 110 potential multipliers and mainstreaming participants

## ArtIn Future Project partners

Internationaler Bund (IB) Mitte gGmbH (Dresden, Germany)

BEST Institut für Berufsbezogene Weiterbildung und Personal Training GmbH (Vienna, Austria)

PIKC “Daugavpils tehnikums” (Daugavpils Technical School) (Daugavpils, Latvia)

CEIP “Felix Cuadrado Lomas” (Cisterniga, Spain)

Technische Universität Dresden (Dresden, Germany)
