

## Erasmus+ Programme Key Action 2 project ARTIN Future is finished

From 09.02.2023 to 10.02.2023 all partners of the ARTIN Future project came together in Germany, Dresden, for the last time and celebrated the conclusion of the future-oriented project, by among other things:

- The developed project results were finally evaluated, viewed and discussed
- The respective multiplier events were discussed and served to bring the project and its contents to the attention of interested parties and knowledge associations
- The remaining tasks were evaluated and distributed
- The last responsibilities and deadlines were fixed

After two days intensive final meetings all partners were very happy to close the project. From now on they are focused on further projects according to artificial intelligence in the education field.

All developed materials are available for free on the webpage <https://ai-future-project.eu>

Have a look on it from time to time!
