Personaltraining GmbH

LEARNING UNIT 1.2

Course:	ArtIn Future– Ethics in Artificial Intelligence
Module:	1. What is AI? (Weak AI, strong AI, artificial superintelligence/ASI)
Unit:	1.2 AI in more detail
Subject:	Terminology of AI
Class:	Learners in secondary education (13-18 years old)
Duration:	45 minutes (plus homework)

Lesson outcome: the learners expand their knowledge about artificial intelligence.

Lesson implementation	
Introduction phase	The learning facilitator explains the task to the learners and gives them the handouts as a homework in a Flipped Classroom approach Duration: 5 minutes
Implementation phase	The learners should take an hour to complete the task at home (as Flipped Classroom approach) They are expected to search for and write down extensive definitions about the words from the handout Duration: 60 minutes
Closing phase	In the closing phase, the learners share their thoughts on the implementation phase and discuss it among themselves and with the learning facilitator back in class. For the 9 th grade, the ArtIn Future PowerPoint presentation has been provided as a sample to start the phase. Duration: 40 minutes

Equipment:

PC / tablet / laptop / smartphone, beamer, whiteboard / online whiteboard, markers, ArtIn Future PowerPoint presentation, handout (Exercise handout for learners)
